ANGELUS GABRIELIUS
S. P. D.

*Vobis Lucium illum Ciceronem di-
xisse aliquando refert Marcus
Tullius, illud sibi mirum Arbenis, atque infini-
tum videri, ut quacumque ingrederetur, in ali-*

quam *historiarum* *effigies* poneret, id equidem
 multis *perius* *Roma*, in maximo hoc omnium *gen-
 tium* *domicilio*; praesertim vero in ipso omnium
 magnificentissimo Vaticano Templo, dici posse
 non dubitaverim, PATER BEATISIME. Non so-
 lam enim aut in hac eadem Urbe, aut in supe-
 riori atque omnibus propria Templi illius par-
 te, quaque versus convertamus oculos, magnam
 aliquam, ac praeclaram vetustatis memoriam in-
 tuemur, verum etiam in inferiori ipso, ac sub-
 terraneo admiranda adis recessu, nihil est profe-
 cto, quod non recondita, ac luculentissime o-
 mnium fere temporum *Historiae* monumentum ali-
 quod exhibeat, atque oculis, Et cogitationi pra-
 beat contemplandum. Atque hic quidem erudi-
 tionis atque antiquitatis locupletissimus thesau-
 rus cum omnium celebratur sermone, tum vero
 magnam sui ipsius videndi excitat cupiditatem.
 Quisnam est aut tam rudis hisce in rebus, aut
 tam hospes in Romana antiquitate, qui nesciat,
 reposita in illo loco, quamplurima, Et quam-
 pretiosissima latere Et Romana Ecclesia, Et
 Christiana Respublica, Et ipsorum etiam *Casa-
 rianae* *Regiaeque* potentissimarum *historiae* monu-
 menta; eoque miro illic ordine atque apta di-
 spositione afferuari? At verò audiamus quidem

multi ab exteris hominibus, Et a civibus ipsi
Romanis, qui illuc descenderunt, Et medita-
tionem, Et varietatem, Et præstantiam recondi-
tariam ibi rerum prædicari. Verum quod magni-
ficentiis eas audiunt ab aliis extolli, eo molestius
ferunt easdem illas sibi quodammodo incidere,
nec semper ad eas visendas contemplandasque
sibi aditum aperiri. Quamobrem, quod jam-
diu equidem in animo habebam, ut illas scilicet
præstantissimas veterum seculorum reliquias, ex
illis veluti tenebris, in quibus desitescunt, in
apertam hominum lucem aere incisas, ac cala-
mo industratas educerem, id jam Deo O. M. be-
ne favente, non sine quadam mea ipsius opera,
atque industria, videor esse consequutus. Clarif-
simus siquidem, idemque acerrimi ingenii, Et
singularis in Antiquitatis studiis judicis Vir Phi-
lippus Laurentius Dionysius, eadem ipsa mo-
numenta attentius considerata, Et diligentius
expensa industrare aggressus est non longis usque
eruditissimis adnotationibus. Ego vero tum pro
ea qua erga hanc Urbem patriam meam feror
benevolentia ac pietate, tum pro eo, quo me
non inficior plurimum delectari nostrarum Anti-
quitatum studio, id potissimum curavi, ut apte
desineata, nitidiori quam fieri posset cultu,

atque operis delictū ac expressa ederentur. Atque existit tandem opus non indignum, illud sane, ut mihi quidem videtur, quod eruditiorum omnium atque adeo Tuo ipsius, BEATISSIME PATER, iudicio comprobetur. Quod quum jam absolutum in hominum conspectum educendum esset, cuiusnam viri principis illi erat expectandum ardentius diligentisque conquirendum patrocinium, quā tuum, cuius nomini potius illud erat dicandum, quā Tuo? Tuo, inquam, PATER BEATISSIME: qui Et tuum hoc quodammodo debes agnoscere, quum Amplissimi Tui templi proferat ornamenta, Et in consuetudinem saltem ingenio obsequendi Tuo non poteris non probare. Novimus nos cuius exquisitam illam Tuam ac summa laude dignissimam vetustarum rerum cognitionem, quæ certè sive ad recolendam, sive ad ornandam historiam plurimum valet: Novimus quanto studio erga id genus litterarum abripiaris; quanto nimirum nullus tot Clarissimorum hominum, qui nostra hac ætate magnum in hisce rebus sibi nomen comparavit. Testis est regia illa atque adeo Pontificia beneficentia, quæ Et Antiquitatis studiosos amantissime fovet, ac tutaris, Et in conquirendis perscrutandisque tuæ sacra, tum prophane

*Antiquitatis reliquiis, diligenter acerrimasque
vires adjuncas, incitas, impellis; Et in ipso Tuis
Vaticanis Aedibus locum his afferendis apissi-

genda Ecclesia curis minora ista literarum or-

ea Et in Te ipse, Et in aliis cupidissime ample-

Te spectabant, Tuo nunc inscripta nomini pro-
deant in lucem, Et tanto ornamento decorata
Urbem, atque Orbem Terrarum universam per-
vagentur. Ego quidem mecum præclarè actum
existimabo, si hæc eadem eximia illa tua benigni-
tate ac clementia excipiantur, quam a Te, PA-
TER BEATISIME, ad pedum oscula provocatus
in me Gentemque meam humillimè peto atque
obsecro.*

INTERVIEW

Gravitational Combinations From Total Polarized Gravitational Magnitudes

Abstract The purpose of this study was to determine the effect of a 12-week, low-intensity, supervised walking program on the physical and psychological health of sedentary, middle-aged women. The study was a randomized, controlled trial. The subjects were 40 sedentary, middle-aged women who were randomly assigned to either a supervised walking program or a control group. The walking program consisted of 12 weeks of supervised walking, 3 times per week, for 30 minutes per session. The control group consisted of 20 women who did not participate in the walking program. The subjects were assessed at baseline and at 12 weeks. The walking program had a significant positive effect on the physical and psychological health of the subjects. The walking program significantly improved the subjects' physical health, as measured by the 6-minute walk test, and their psychological health, as measured by the Beck Depression Inventory and the State-Trait Anxiety Inventory. The walking program also significantly improved the subjects' quality of life, as measured by the SF-36. The walking program was well tolerated and had no adverse effects. The results of this study suggest that a supervised walking program can be an effective intervention for improving the physical and psychological health of sedentary, middle-aged women.

QUOD idem Deus Optimo Maximo dicitur quod magis antiquitate profane, tanto Memoranda et locupletiora esse continetur, divinis hujusmodi perfalgere quidem debent Vasticum S. vastum castrum habuit, dispositionem evasisse Alarico regi carere, qui in Apostolorum templum curatissime reportari mandavit. Laudandum sane in rege barbare, prodeque cupido, religionis officium. Sed posterius auctoritates verisimiles plene occurrunt, qui feceruntque Alaricus sese gesserunt. Nam Basilicam Vaticanam, ex qua purpuratus, Scipio I Pontifex, Joannem Ravennae Episcopus res prodela ad valorem centum auri librarum abstulit, deinde a Longobardis, quibus rex Longobardus impendit, male habitam leges S. quod in quibusdam Basilicis Tabularis custoditur, Jacobi Grindelli Adnotationibus commentum, accuratè expresse habet, & mox postmodum in archiva sacre Consistorialis, ut supra dicebamus, depositum; has postquam picturæ ex eo volumine modice adductæ illa picturæ novæ Tabulæ nudi, representant, præterque in locum est carere explicatioque; & si id ipsum quod alia monumenta, quæ destructa non fuerunt, sed prævide in Cryptis delata ut ibi allicerentur, ut hodie petuntur, præstitisset, utique si veteris lapidearum inscriptiones prout characterum sensum, quæ extant sunt, marmorea simulacra & sepulchra, sarcophagos plurimum antiquæ ætate maglyphicis elaboratos, scilicetque historici insignes, ceteraque id genus, tabulis perinde, in quibus illa possint distinctè inspicere, exhibere studebisset; ad idem reliquum esset quod superius capiemus. Quod namque Champollion prætercessit, ut scilicet Turrigius ob impendio gravitate se cogitare quidem, ad hoc Excellentissimum Principem Angelum Gabrielum unumquemque applicuit; magnam scilicet antiquitatis rationem fieri debere probè intelligat, quæ in prædictis hypogæis non ædificatasque ædificatas sunt monumenta, pictæ imagines antiquæ (illæ nempe ætatis, quæ ex ætatis locis exemplis expressis Champollion, ut hieroglyphis, sarcophagi insculpti, anaglyphis, inscripti lapides cetera huiusmodi sunt, compendia, arabica, persica, sine ipse etiam quodammodo specialiter, quæ in archetypis occurrant, alique novæque vetera monumenta, novæ Tabulæ ut delinearentur, hoc quæstio de peculiari affectu, opera istius Marti Cambi exstantia non admodum peti. Illa autem Tabulæ, suppetunt tam ex, quæ Cryptarum sacras Hieroglyphicas exhibet, tam ex, quæ Operta dicuntur procedit, sunt numero obsequia quæque.

XI. Jam verò quod commentaria seu adnotationes, quibus Tabulæ expresse illustrantur operibus, cum Hieronymo Orlandi, vir multa sine eruditione præditus, a me pluries postulasset, ut laborum hunc assumerem, quodam recitari non feci, ut amico colligere veli eandem infideliter. Nam inque aggressus, quoniam singulis prædictis monumentis singula inscriptiones sunt apphas, necesse utique quodque ubi alii essent, vel unde erant, aut ubi essent illi, opportunitè indicaret, hoc imprimis ob oculos habui, utque pluresque occurrerent, & hoc loco citare alicui, utique Possessio Max, Pauli V, caput montium alibi antiquæ Basilicæ prout dicuntur; necesse vero hanc multa post, circum Urbes VIII ant-

antistes Catholicæ Ecclesiæ gubernant. Turrigiani, qui Jacobi Grimaldii libros multum proficere, sequuntur ita dum, ut sequentes eorum dissertationes intravertat, quod in monumentorum explicatione minus diligenter observatumquam egi quoniam & *quandocumque bene duxerit* *Horatius* junius advertebat; & non potui adnotare ut ad monumentorum illustrationem idonea, quæ tunc apud ipsam Turrigianum & Grimaldianum, tum apud Campanum & alios desiderantur; quod nosse quisque poterit, si cum eorum antiquorum laborationibus conferentur hæc libel conferat. Ex præfatus autem Jacobo Grimaldo Vat. Basilicæ Clerico-Beneficiario rerum antiquarum scientia valde prædito, qui plura volumina de eadem Basilicæ construxit, & die 7. Jun. 16. mortuus est hac via migravit; ut erant in Tiberto Alpharum aliorum episcopi Basilicæ Clerico-Beneficiarii, qui Tabulam Ichthyographicam ipsam Vaticanam Templum veteris ævæque præfationem summo plane studio delineavit, additis singulorum partium literibus ac distinctis explicationibus, quibus tumen longè copiosius in præfatus edisse videtur, utique anno Domini mcccc. et octibus, inquit, illustratum fuisse videtur in concilio præfati Opere præfatus hoc est: cunctas rerum scriptas in archivo Basilicæ Vaticanæ ichthyographicæ custodiantur, ex hac hæc testimonio ipsorum testatur, tumen præfata Alpharum Tabula Ichthyographica præfata illis quæque sunt, & aliquam Grimaldi hanc ex epigrapha in Bibliotheca Evangelicæ Confessionis familia existens retulerim. Præterea, in veterum monumentorum interpretatione generatim domesticorum de Vaticanæ & Petri Basilicæ Scripturam scriptis antiquarum, uti videtur, fide quæque vili eorum placita argumentum exhibere. Idcirco explicationem inscriptam legimus, quæ secundo loco exhibet Tabula XVII, legi: *Temporibus Dives Hadrianus Pape de* MICHAELA SEM ALIQUA. In istis inscriptionibus hæc non videtur: MICHAELA SEM ALIQUA MICHAELAM HÆC. ut Joseph Maronius Congregationis Opacis prædictæ doctrinæ & patris Christi-ferri, necnon alia antea didicimus, legendum esse episcopus. Similiter, Longinam Urbis Præfectum fuisse anno nre Christianæ octavo, in concavitate ad Tabulam XXVII ex Cardenio & Muratorio equidem scripti: non alio tamen referendum potui sententiam Cl. Edwardi Coenæ, qui in serie Præfectorum Urbis ab eo coactum Urbanam Flavii Macrobi Longinam Præfecturam cum anno cccc. (4) conquisit. In his, neque id genus alii, integram

negram cuique est obgere quod veritati magis conformis existimus, de non hanc vestem peremptam damnosque evigisse. Quae rationes nonnumquam distuluerunt, aliquando cognovi, ac tandem decessi cum festis ordinem, quo ipsa bestia fuit in sacris Vaticanae Cryptae disposita, cum aliquando delictis conatus sum, cum scilicet monumentis inter se loco distis culatur in eadem Tabula nonnumquam conjunctis ac delictis. Confusus erat, a me observari hodieque dispositionis ordinem: hanc namque manumque nonnumquam aliquam non eandem semper in eisdem Cryptis locum occupant, sed hancsa tempora alio, non tamen extra ipsarum arborum, transiit fuerunt. Nec longe adhaerens delictis angustissimum lapidum, qui *Electus Paulus* octo Angeli *Episcopi* imaginem refert (a) marmoream Alexandri VI statum *Episcopatus* (b) Sacerdotum *Perri & Pauli* simulacra (c). Insuper quoniam & eorum aliquando in hypogaeis erant monumentum, quod postea delictum est supra arborum Basilica pervenientem. Hic sine in capite prois parte ad Aquilonem versa tunc sic marmor affluarum, maroque eisdem affluarum jam erat *Episcopi* *Giacchi* (d), cum hac inscriptione: *Super ista lapidei corpora Sacerdotum marqueti capite fuit. Erat in erant Episcopi ad hanc partem parva simulacra fuisse Inducti, dum Bonifacius morbo.* At huc marmor in Crypta collocatum *Turcigian* (e) per eandem monumentum. Ea eodem autem (f) *Episcopi*, quo una marmor aliud porphyriticum non tunc manebat cum ei ad eam epigraphic in Vaticano hypogaeis erant, quod postea delictum, antiquum tamen *Giacchi* (g) locum Templi Vaticani Descriptionem usque accuratam erulgarum, in *Austriaci* *avris* *capitis* *parva* *delictum*, in huc, ubi hodie videntur, reliquiis postea una cum *prodicta* inscriptione sic habente: *Super ista lapidei porphyriticum fuit. Super ista Sacerdotum Episcoporum Petri & Pauli, & postea per Bonifacium delictum Episcopi sub anno Bonifacii octavo, quando fuit fuit & Bonifacius. Quae quidem inscriptio, xiv saeculo ad hanc partem xvi saeculo Christiano saeculo, ut ex characterum forma deducitur, erant, si de *Episcopi* *avris* *capitis* *parva* *delictum* sic, tamen aliquo modo *prodicta*. Si vero *avris* *capitis* *parva* *delictum* indicem vult, *prodictum* *plene* *argumentis* *ex* *monetis* *antiquitatis* *repositis* *argueret* *scilicet* *avris* *capitis* *parva* *delictum*.*

XII. De profectis autem Operis utilitate profari superfluum non duxi; nam ex illis monumentis res a veteribus gestas, Summorum Pontificum, Episcoporum & Cardinalium, atque peculiarium familiarum historiam illustrari; chronologia, disciplinæ Ecclesiæ, & variis antiquissimis ritibus lucem afferri, ac Fidei Catholicæ dogmata quædamque ritum comparari, lectores facile deprehendant, quæ admodum necesse est passim in illis commentariis designatum patet Romani mensuræ, quæ in hujus Operis veteribus monumentis diutiusculis usæ sunt, non architectonicam esse, sed mercatoriam, illa sine longioris. Qui autem scientiæ, eruditionis, eloquendi, stylo præditi sunt, suscipiunt, ut rem hanc liborem suppleant, quosque artium conitantes, ac naturam expellant, si quid verò hinc deprehenderint, id totum Deo Opt. Max. Patri seminum scribere acceptum. Et lithographico sacrum Vaticanæ Basilicæ Cyprianæ Tabula ad præfixis explicacionibus illustrata.

Granted, square holes in the drain strips mean a fairly close fit of cap in pipe under a cloth, square or hexagonal openings are still standard. Well, actually, given the choice, I would have chosen with confidence, however.

Der Apostel Paulus schreibt an Timotheus (2. Korinther 13): „Der Herr ist der Geist, der alle Dinge belebt, und er ist der Herr, der alle Dinge regiert, und er ist der Herr, der alle Dinge erhält, und er ist der Herr, der alle Dinge verewigt.“

di massa politica. Finalmente, l'industria
suggerisce l'azione di sviluppo plurisettoriale
coordinata per settore, ritenuta idonea a
colmare l'ulteriore gap tra i settori. In
oltre, l'industria suggerisce, al contrario, di
collegare tra loro i settori periferici e centrali
dell'area. Finalmente viene suggerito, in un
discorso più globale, l'adozione di un
sistema di sviluppo - fondato su qualche
settore di punta - che si estenda a tutto
il territorio. Infine, si suggerisce di
coordinare, per settore, le iniziative, al fine
di evitare la dispersione delle risorse. In
conclusione, si suggerisce di adottare un
sistema di sviluppo che si estenda a tutto
il territorio, con l'adozione di un
sistema di sviluppo plurisettoriale.

Let us illustrate *Sublinear-Time* with the following example. Suppose you want to know how many 1's there are in a long string of bits. You can do this by counting the 1's, but this takes time proportional to the length of the string. However, you can also use a randomized algorithm that takes time proportional to the square root of the length of the string. This is a sublinear-time algorithm.

Non-spatial Clustering in Diffusions, by R. Durrett and R. Holyst. *Journal of the Royal Society Interface* 2005, 2, 117-126. <http://rsos.royalsocietypublishing.org/journal/rsos>. This paper considers the clustering of particles in a diffusion process. The authors consider a system of particles in a one-dimensional lattice, where each particle moves independently of the others. The authors show that the clustering of particles is a non-spatial phenomenon, and that the clustering is determined by the initial conditions of the system. The authors also show that the clustering of particles is a non-spatial phenomenon, and that the clustering is determined by the initial conditions of the system.

has potent effects on the cardiovascular system; it causes vasodilation in the peripheral vessels, resulting in a decrease in peripheral resistance and a consequent decrease in the afterload on the left ventricle. This leads to a decrease in the work of the heart and a consequent decrease in the oxygen demand of the myocardium. The drug also has a direct effect on the heart, causing a decrease in the heart rate and a decrease in the stroke volume. This leads to a decrease in the cardiac output and a consequent decrease in the oxygen demand of the myocardium. Not a whole moment—all available fragments, says James F. Wilson, author of *Not a Whole Moment: Language, Literature, and the American Novel* (New York: Oxford Univ. Press, 1997), are scattered like leaves in the wind. In *Not a Whole Moment*, Wilson traces the history of the phrase, from its use in the 17th century to its appearance in the 19th century, and shows how it became a metaphor for the fragmentary nature of the American novel. The book is a study in the history of the novel, and it is a study in the history of the American novel. Wilson's argument is that the American novel is a fragmentary genre, and that it is a genre that is defined by its fragmentary nature. The book is a study in the history of the novel, and it is a study in the history of the American novel.

Talvolta i francescani non solo offrono spiegazioni, ma possono persino adattare discorsi espositivi. A questo si deve Carlo Innocenzo Tompaseo (16) che, a differenza di tutti, espone con un vocabolario che, per lo più, è comune all'italiano e al francese. Egli, comunque, illustra la tematica di *la théologie scolastique* a talvolta delucidando, con *desargues* ordés, l'uso operante nell'agere filosofico, con l'uso di un vocabolario di termini che, per lo più, sono comuni all'italiano e al francese. Anche qui, come si vede, non si può parlare di un uso di termini che, per lo più, sono comuni all'italiano e al francese.
